Dear Lee

On behalf of the Board of Marlborough Boys' College I would like to formally acknowledge and thank PC Media for the high level of expertise and professional service provided since the takeover of the college IT contract at the beginning of 2015, particularly given lack of technical information released by the incumbent provider on hand-over.

In addition the goodwill and preparedness to undertake essential un-contracted work at the school year start-up, and your team's ongoing technical work in resolving the significant SNUP frustrations are also appreciated.

Yours sincerely

Tony de Reeper
Board Chair
